Wireless Remote Control Systems

ONE-Touch Model LA Wireless Remote Control System For Load/Agitate Lagoon Pumps

The ONE-Touch Model LA is a wireless remote control unit designed to switch loader pumps from LOAD to AGITATE with ONE Touch of a single button. The Model LA is housed in a rugged NEMA 4 enclosure for protection against the environment. Useful range up to 300 ft. Range will vary depending on terrain, obstructions, and other conditions.

Mounting is easy; simply drop onto a 1- $\frac{1}{2}$ " OD pipe. The power and control cable mates with a twist-lock connector. The receiver is reverse polarity protected and will blow a fuse if cross polarized. Power requirement is 12 VDC.
